

CHANDAN B

Software Developer

+91 7337890720 | chandanb200317@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

CAREER SUMMARY

Full Stack Engineer with experience building scalable enterprise applications and cloud-native systems. Skilled in frontend development, backend services, database optimization, and delivering production-ready applications.

EDUCATION

Sahyadri College of Engineering and Management

Mangaluru, Karnataka | Graduated: Jun 2025

Bachelor of Engineering in Information Science and Engineering, **CGPA: 8.4 / 10.0**

Core Coursework: Data Structures, Cloud Computing, Database Management Systems, Systems Design

WORK EXPERIENCE

Deloitte — Software Developer

Bengaluru, India | Jul 2025 – Present

- Architected cloud-native microservices using Node.js, Redis caching, and PostgreSQL optimization to support scalable enterprise workflows and improve system reliability.
- Developed reusable frontend components and state management workflows using React.js, Redux, and Tailwind CSS, improving UI scalability and reducing feature development time across enterprise applications.
- Engineered real-time ingestion pipelines using AWS Lambda, OpenSearch, and S3 event triggers, **reducing log processing latency by 20%**.

Deloitte — Product Engineer Intern

Bengaluru, India | Jan 2025 – Jul 2025

- Developed enterprise workflows using REST APIs, DynamoDB, and PostgreSQL across distributed microservices architectures, improving system scalability and workflow efficiency.
- Implemented secure file management using AWS S3 and optimized pre-signed URL workflows, **improving file retrieval efficiency by 30%**.
- Optimized PostgreSQL and DynamoDB schemas and improved transactional consistency.

Niveus Solutions — Full Stack Developer Intern

Mangaluru, India | Oct 2023 – Nov 2023

- Spearheaded modernization of government infrastructure by constructing a grievance website that automated image metadata identification, **diminishing manual sorting time by 70%** and expediting issue resolution.

PROJECTS

Kulkunda Temple Website | JWT, Firebase Auth, Firestore, Tailwind CSS, Cloud Functions

- Built and deployed a production-ready website with secure authentication and responsive UI optimization, improving cross-device accessibility.

Virtual Try-On System | Three.js, Flask, Python

- Engineered a virtual try-on platform for real-time 3D clothing visualization from 2D images.
- Integrated Three.js with Flask for body measurement processing and dynamic cloth fitting.

Personal Portfolio Website | Next.js, Spring Boot, PostgreSQL, Tailwind CSS

- Designed and deployed a full-stack portfolio website using Next.js, Spring Boot, and PostgreSQL.
- Deployed the frontend on Vercel with optimized UI responsiveness and modern component-based architecture.

TECHNICAL SKILLS

Programming: Java, TypeScript, JavaScript, C++, SQL | Backend: Node.js, Spring Boot, REST APIs, Microservices | Databases: PostgreSQL, MongoDB, DynamoDB, Redis | Cloud: AWS, Docker, CI/CD
